

## Game Lesson 7 : Sports Kit

To design your own sports kit.

### Objective:

Using the template provided ask children to design a new sports kit for their school. This colouring and creative activity helps children's individuality come out through design and selecting their own colours.

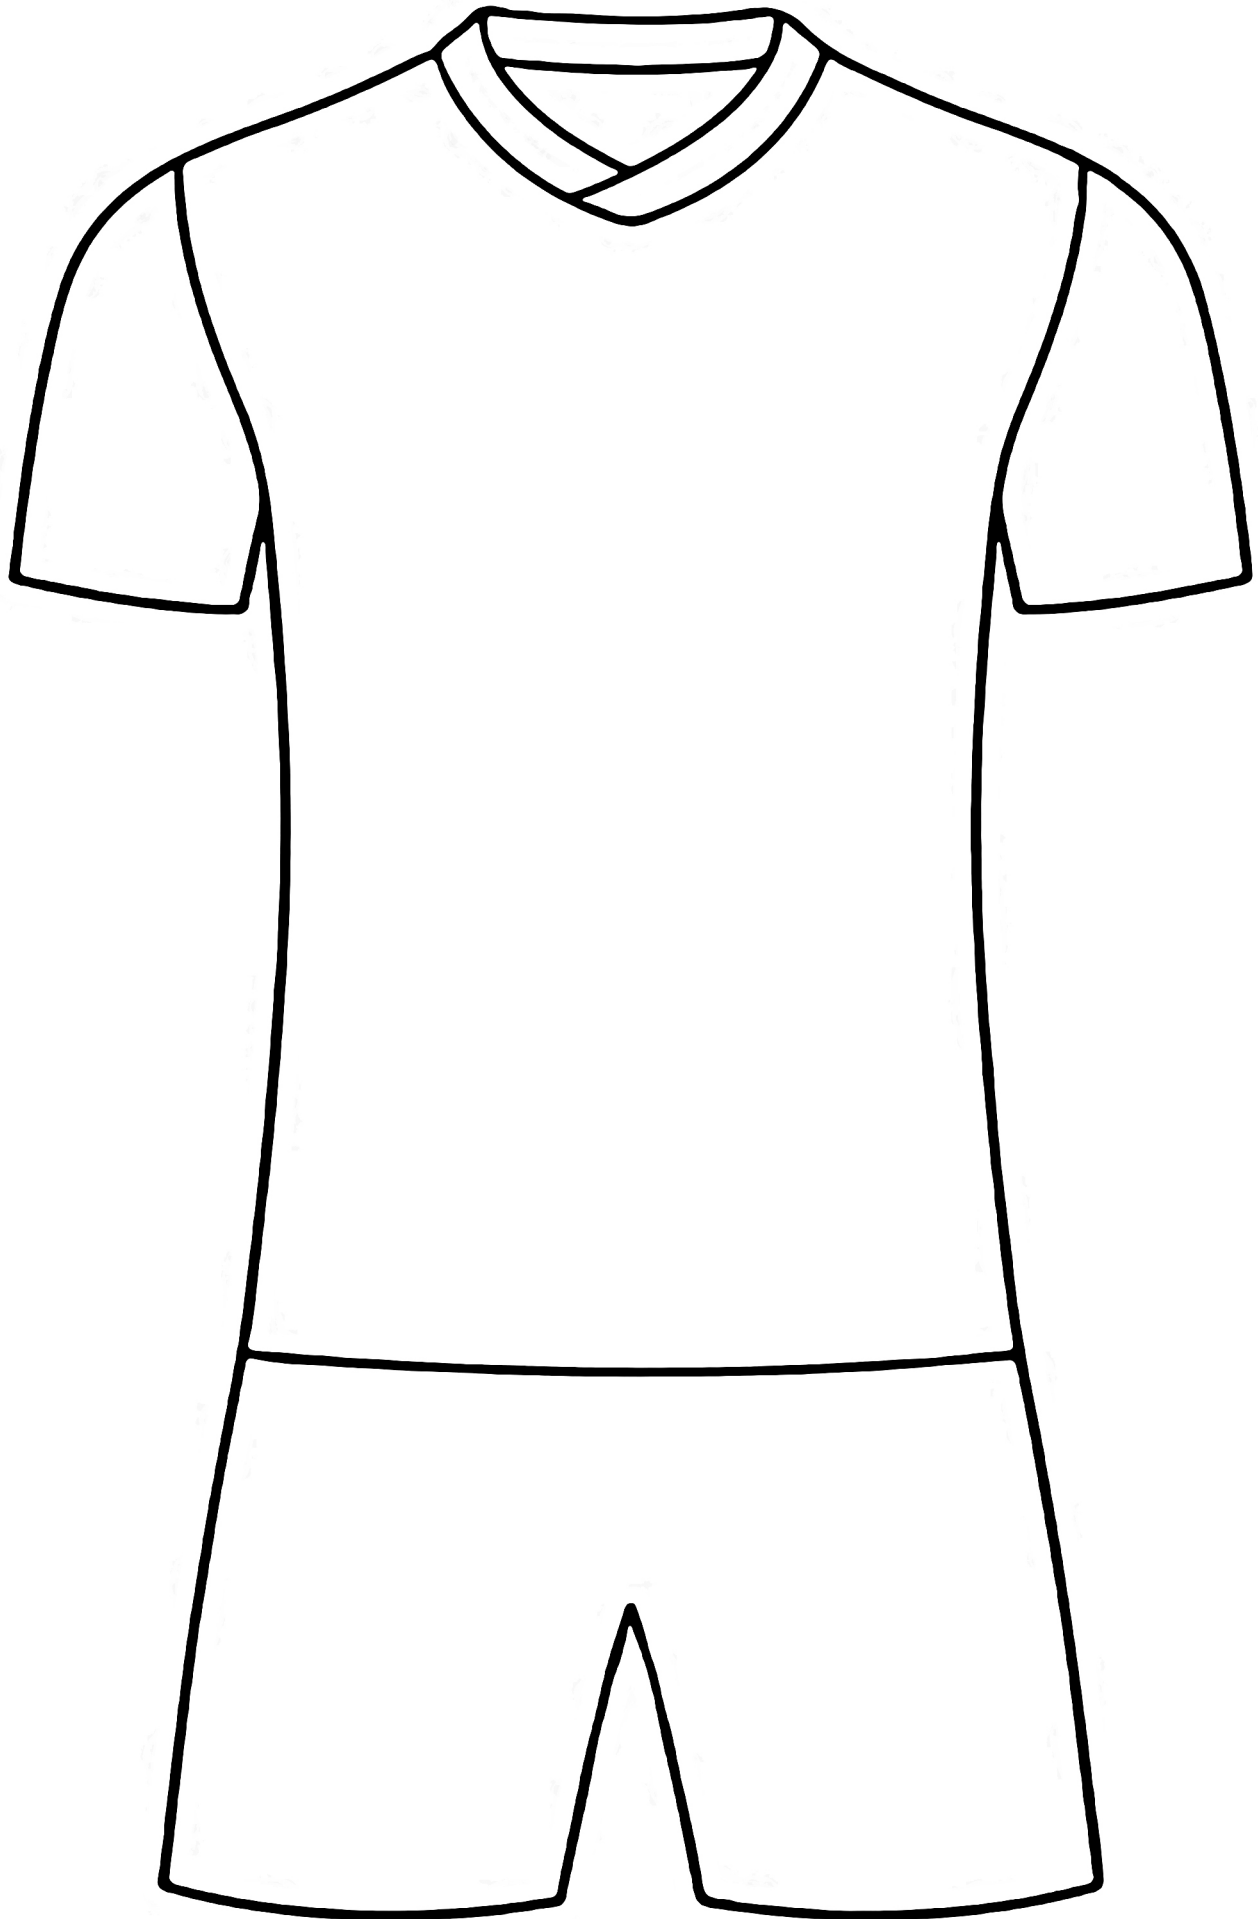

### Task:

Discuss whether stripes, spots or solid colours will work and what words can be used, if any. Suggest they look at strong colours like the ones used to make the Nutri jewels. Talk about the different sports at their school and which they like most.

### Outcomes:

Children feel confident and happy as they are engrossed in designing their own sports kit. They develop dispositions for learning such as curiosity, cooperation, confidence, creativity, commitment, enthusiasm, persistence and imagination.
